

Sustainable Waste Management Policy

SUSTAINABLE DEVELOPMENT GOALS

Sustainable Waste Management Policy

1 Introduction

Tiger Motors Sdn Bhd, as a responsible used car dealer in Kuching, Sarawak, is committed to implementing sustainable waste management practices. This policy outlines our approach to minimizing waste, promoting recycling, and ensuring proper disposal of materials associated with our operations.

2 Objectives

- Reduce the environmental impact of our waste generation
- Comply with all relevant local and national waste management regulations
- Promote a culture of sustainability among our employees and customers
- Continuously improve our waste management practices

3 Waste Reduction Strategies

3.1 Vehicle Maintenance

- Implement efficient maintenance practices to extend the lifespan of vehicles
- Use environmentally friendly cleaning products and methods
- Optimize the use of spare parts and materials to minimize waste

3.2 Office Operations

- Encourage paperless operations where possible
- Use recycled and recyclable office supplies
- Implement double-sided printing as a default setting

4 Recycling Program

- Establish clearly marked recycling stations throughout our facility
- Properly segregate recyclable materials (paper, plastic, metal, glass)
- Partner with local recycling facilities for regular collection
- Recycle automotive fluids, batteries, and tires through certified recyclers

5 Hazardous Waste Management

- Identify and properly label all hazardous materials
- Train employees on safe handling and disposal of hazardous waste

- Contract with licensed hazardous waste disposal companies
- Maintain accurate records of hazardous waste generation and disposal

6 Employee Education and Training

- Conduct regular training sessions on waste management practices
- Provide clear guidelines and signage for waste sorting and disposal
- Encourage employee suggestions for improving waste management

7 Customer Engagement

- Inform customers about our sustainable practices
- Offer guidance on proper disposal of vehicle-related waste
- Promote the benefits of maintaining vehicles for longevity

8 Monitoring and Reporting

- Regularly audit waste management practices
- Track and report on waste reduction and recycling metrics
- Review and update this policy annually

9 Compliance

Tiger Motors Sdn Bhd is committed to complying with all applicable waste management laws and regulations in Sarawak and Malaysia. We will stay informed about any changes in legislation and adjust our practices accordingly.

10 Responsibility

The implementation and oversight of this policy is the responsibility of the Management Team. All employees are expected to adhere to these guidelines and contribute to our sustainable waste management efforts.

By implementing this Sustainable Waste Management Policy, Tiger Motors Sdn Bhd aims to minimize its environmental impact, demonstrate corporate responsibility, and contribute to the sustainable development of Kuching and Sarawak.
